**ASX Announcement** **03 November 2025**

## UPDATE ON LEGAL PROCEEDINGS AND OPERATIONAL PLANNING

**Triton Minerals Limited** (ASX: TON) ("**Triton**" or "the **Company**") provides an update on the ongoing legal proceedings and operational activities associated with the Share Sale and Purchase Agreement ("**SSAP**") for the Mozambique graphite projects.

As previously disclosed, Triton is engaged in proceedings aimed at resolving outstanding matters under the SSAP. The case management hearing has now been adjourned to 9 December 2025, providing the parties with additional time to progress completion of settlement implementation under the Deed of Settlement and Deed of Variation executed on 4 September 2025[1].

The Company continues to work closely with NQM Gold 2 Pty Ltd and their legal advisors to achieve a commercial resolution while ensuring that the interests of shareholders remain fully protected. Triton remains committed to finalising the matter in a manner that enables the Company to focus resources on its growth initiatives in Mozambique.

In parallel, the Company continues advancing its operational planning for the Aucu Gold-Copper Project, where the technical team has been mobilised and initial fieldwork has commenced. The exploration program focuses on geological mapping, rock-chip sampling, and geophysical interpretation to define high-priority drill targets.

Triton's management and Board remain committed to balancing the resolution of the SSAP dispute with the continued advancement of the Company's exploration and development assets, supporting long-term value creation for shareholders.

Further updates will be provided to the market as developments occur.

## FOOTNOTES

1. **ASX Announcement: 4 Sep 2025:** SSAP Update - Deed of Settlement signed

The ASX announcement was authorized for release by the Directors of the Company.
